

# Task 43 “VEHICLE GRID INTEGRATION”

Participant countries:

The IA-HEV Executive Committee unanimously approved Task 43 at the Executive Committee meeting in October 2018 held in Burgdorf, Switzerland. The Kick off meeting took place May 2019 in Lyon, France.

## Objectives

- To explore, identify and give answers to **the gaps preventing the electric vehicles to be fully integrated in the electrical grid.**
- To improve the joint work between **electric sector and mobility sector**, which is a key point for the real energy transition.

## Scope & Basic Approach

- Analyze all **VGI aspects** by means of **expert workshop** meetings with stakeholders involved in each of the identified gaps.
- **Join stakeholders** from different sectors to find global solutions to current chicken and egg situation. (No market because no users vs. no users because no market)
